2023 – WOULD YOU LIKE A HIGHER CONSCIOUSNESS PAID POSITION TO CONTRIBUTE YOUR UNIQUE GIFT TO THE WORLD?

Do you have, just like us, that deep desire to have your unique gift contribute to a new world? A new world filled with abundance; a new world filled with kindness and contribution; a new world that works for ALL people. Is 2023 going to be the year that you make this desire come true?

My name is Richard Alexander. I am the Founder of the Sustainable World Project. Here is my short profile and 3 videos on who we are and what we do – <http://www.sustainableworldproject.com/downloads/Profile%20Richard%20Alexander.pdf>

In 2023 we continue the selection of our Core Team. This year we are looking for a Project Manager, an Executive Assistant, a Personal Assistant, a Holistic Chef, a Wellbeing Manager / Healer and a Holistic Cleaning Artist. Next year we are looking for even more team members. More details here.

APPLY IF

1. You value integrity. You walk your talk.
2. You are mature, patient, loyal, open minded, eager to learn, able to receive feedback, kind, non-reactive and peaceful.
3. You know the importance of calming your mind through nature, meditation, prayer or otherwise. You practice this daily.
4. You understand that we are wired for separation and you know that power only comes when we unite. You have some power over the separating programming of Ego and personality in your subconscious mind.
5. You have a sense of humor about yourself and life. You know you are not perfect and are okay with that.
6. You know by intuition or by research that there is so much more going on in our world than mainstream information tells us.
7. You have an internet connection that allows video calls on Zoom. You have access to Facebook, WhatsApp and YouTube. You speak

English and have a laptop and smart phone.

8. A bonus could be if you have lived in multiple countries or have interacted much with people from multiple countries. You have had exposure outside the box of your cultural programming.

DON'T APPLY IF

1. You have no power in your word, are often late, rigid in your thinking, emotional in your behavior, break your promises easily, have no idea what it means to be responsible for your thoughts, feelings, attachments and expectations and find it difficult to apologize.
2. You only resonate with the money part of this post.

TERMS OF PARTNERSHIP

We work in a new paradigm. We will sit down and co-create the terms of our collaboration in a way that leaves you empowered, enabled and inspired. We will co-create the amount of pay, the time you will spend on contributing your unique gift, your work location, your starting date and more. We guarantee 20-25% more income than your best paid income so far. Practicals can always be worked out when the relationship is in place. We start our intake sessions with relationship building.

Our intention is to form a life long collaboration with mutual value exchange. Not only can we get you a good personal income, we can actually support you in becoming financially free. Most people have too much baggage of the past to recognize a unique opportunity that sounds too good to be true. We look for the few that have done their inner work, can transcend that instant judgment and therefore still have the ability to trust.

APPLICATION OPEN – APRIL TO JUNE 2023

In the 23 years of pursuing the Sustainable World Project, the Founder has learned few lessons and build few unique and resourceful relationships. This can make the promises made here come true. We don't expect to convince you here. We don't believe in convincing people. We trust that in the personal interaction in our online intake process on Zoom you will find out for yourself whether you are inspired to team up or not. Both options

are completely valid. In life find what resonates with your heart and pursue that with great determination.

You can take a few months in our intake process to figure out who we are and what we do. That way both sides can peacefully come to a choice of moving forward or not.
