

Inspiration for your participation in

# **The Sustainable World Project**

**Get a Life You Love => Get a World You Love**

We like to introduce

## **Vision 2024 Young World Leader Empowerment Platform**

A first step to create a world that works for everyone by the year 2050

designed by

**Richard Alexander**

(lets hope it will not be a boring read)

## **Sep 28<sup>th</sup> 2024 8:00 am, Bangalore, India – Local Preparation**

We arrive at an empty piece of land next to Fireflies Ashram. Mahoro says: “In one hour time 15 volunteers will come to prepare this location. For now, this field is empty, but in 5 days time it will be very different. This piece of land will be prepared for setting up a huge inflatable Airscreen, 5000 chairs, cameras, speakers, microphones and other equipment. At 8 pm, Oct 3<sup>rd</sup> 2024 we will have 5.000 people on this location to participate in a huge worldwide interactive event.”

On the land we have a small ceremony. Mahoro says: “I declare that at 8 pm, October 3<sup>rd</sup> 2024 three million people worldwide will have an unprecedented experience. This experience will be so powerful that it WILL change the rest of their lives. This experience will be so powerful that it WILL create a world that works for all people!”

In July 2022 we facilitated Camp 3 from this location. Take a look at the 3 minute video - [Visialization Camp 3](#)

## **Oct 2<sup>nd</sup> 2024 9:00 am, Bangalore, India - Headquarters**

Four hundred meters from Fireflies Ashram we find the THRIVE Empowerment Center. This is Headquarters for the Sustainable World Project. Here we have our first meeting for the day.

After hundreds of test events, tomorrow is the day our Young World Leader Empowerment Platform will reach more than 3 million people worldwide. This was possible because our team has been visualizing and preparing this event for many years. Tomorrow these 3 million people are participating in the creation of a Sustainable World. Our shared objective? A world that works for all people by the year 2050.

The interactive event tomorrow will be an elaborate show, designed to inspire the participating audience through many unprecedented experiences. This first larger event has as a theme 'Connecting people's Hearts'.

See a 3 minute video on our THRIVE Empowerment Center in Bangalore, India - [Video THRIVE Empowerment Center](#)

## Oct 2<sup>nd</sup> 2024 9:30 am, Bangalore, India – the First Meeting

At headquarters we meet the Primary Continent Leaders for South East Asia and we connect online with the 9 other teams. We go over the final preparations and then spend 30 minutes together in a healing session with guided dialogue to empower ourselves. Meet the Primary Continent Leaders who ARE changing the world. Watch [Video first Primary Leaders 2018](#)

1. Team Asia West
2. Team Africa (Mahoro, Gift, Honest, Stella, Abdallah, Joice, Linah)
3. Team Asia East
4. Team North America (Dan)
5. Team South America
6. Team Middle East
7. Team Europe
8. Team Pacific (Elliot)
9. Team Central America (Dei)
10. Team South East Asia (Ahsan)

## **Oct 2<sup>nd</sup> 2024 1:00 pm, Bangalore, India – Connecting with SWU**

At 1 pm we connect with the now 20 schools and colleges of SWU. Sustainable World University was the first official partner joining the Young World Leader Program in 2019. A second online meeting is taking place to prepare for the event on October 3<sup>rd</sup>. A team of 20 students of SWU Bangalore will facilitate the location at Fireflies Ashram. Hundreds of other students of SWU are supporting with facilitation on other locations worldwide.

Between 2019 and 2024 a 1000 Young World Leaders have been rigorously trained. Some of our Young World Leaders were graduating students of SWU, others came through our [Facebook group](#). The most committed ones have become Primary Continent Leaders and Primary World Leaders. They will spend the next 26 years on empowering all Young World Leaders. Their objective? A world that works for all people by the year 2050. These young leaders will spend their entire lives on creating a Sustainable World.

**Oct 2<sup>nd</sup> 2024 7:00 pm, Bangalore, India – Primary World Leaders**

Later that day, we are having our third and last meeting at the Chinnaswamy stadium here in Bangalore. At the stadium we meet the five Primary World Leaders coordinating the entire worldwide event. Besides empowering the 10 leading teams, they will also empower 100 local Young World Leaders. In 28 hours time these 100 leaders will host 40.000 people from South India in the Chinnaswamy stadium. We meet Joe from Canada, Amir from India, Mahoro from Africa, Karin from Germany and Kaori from Japan. They are for sure THE most amazing young people I have ever met. The wisdom, love and power they exude is an inspiration to all who have the privilege of interacting with them.

The team is meeting with Zahir, who is active in the local government of the state of Karnataka. Zahir understands that the only way to have a state and a country that works for all, is to connect the hearts of all the people. Zahir is a short guy of 5'4", a big mustache, curling black hair and bright shining eyes. "Welcome my friends, welcome my friends, it is so good to see you!", he says with a loud voice.

### **Oct 2<sup>nd</sup> 2024 7:00 pm, Bangalore, India – Chinnaswamy Stadium**

“I have everything prepared.”, Zahir continues, “Tomorrow at 8:00 pm the worldwide interactive event can start and we will have a 40.000 people participating in the Chinnaswamy stadium. We could actually sell out the stadium another 50 times, but I guess people will have to be patient and wait for the next event on November 2<sup>nd</sup> 2024.

Congrats on achieving 1600 Young World Leaders! This means we are going to see even more positive change worldwide than we see now. I can't wait!

Let me tell you a bit about tomorrow. We are expecting more than 3 million participants worldwide. We are going to connect with 9 other stadiums. Within 2 hours 6 huge inflatable Airscreens will be setup in the arena so tomorrow 40.000 people can connect with their fellow human beings worldwide.” Zahir smiles, pauses and says: “This, has never been done before in the history of this stadium.”

### **Oct 2<sup>nd</sup> 2024 5:00 pm, Bangalore, India – A 'Mobile Heart'**

Outside the stadium we see 3 huge cranes. Tomorrow the cranes will be able to move a huge heart shaped platform inside the stadium. This way Young World Leaders can host shared activities from the heart, while meeting the audience face to face. In our 'Heart' we will have 3D hologram solutions so the audience will 'connect' with more than 'what is just local'.

The cranes, the stadium and the 'Heart' shaped platform will have an abundance of light effects powered by new energy solutions. Five portable Q.E.G.'s will be used to power our 'Heart'. This means our mobile 'Heart' can easily move to any location in the stadium and 'connect' with many other hearts in our participating audience!

## **Oct 2<sup>nd</sup> 2024 6:00 pm, Dubai, U.A.E. – An Elaborate Show**

The atmosphere around the events is one of love, joy and excitement. Next to the Young World Leaders, we have the support of many many students and other volunteers who have begged and begged us to be part of the team that is changing the world. With that much support we are clear the world is truly moving into a new realm of abundance.

At our 10 leading locations we have obviously a bigger budget to create this elaborate show, however all people who host a location are invited to use our theme 'Connecting people's Hearts' within their available budget. All around the world locations are being prepared inside this theme. In the stadium in Dubai all the light effects and 3D Hologram solutions are being tested.

## **Oct 2<sup>nd</sup> 2024 6:00 pm, Bangalore, India – Creating the Space**

Two hours before the event starts. People at work and people at home can join this event online. They are transforming their conference rooms, living rooms and gardens into interactive locations. Beautiful 'heart' shaped decorations, lighting and more are creating a magical space in which all people feel welcome. A magical space in which all hearts will be connected. Around the world people are inviting their colleagues, their neighbors, their local communities and their best friends. They are what we call 'the participating audience'.

The intention is to awaken the potential we all have inside. We are ALL capable of extraordinary acts. We just need someone to remind us how wonderful and worthy we all are. This is exactly what these interactive events are for! This is exactly what the Young World Leader Empowerment Platform is for! Since two days people have started sending us pictures of their 'heart' shaped decorations at home. Tomorrow we will display some of them on the big screen.

**Oct 2<sup>nd</sup> 2024 10:00 am, Barcelona, Spain – Worldwide Preparation**  
Around the world 10 stadiums are being prepared. In Barcelona the 5 Primary Continent Leaders for Europe are facilitating all activities. Today, four portable Airscreens are being setup.

In Europe we are working together with Eric from 'Teach for All', an other youth leadership program connected to SWU. Our Young World Leaders have gotten exposure of many powerful leaders. Some of their names are Foster Gamble, Micheal Tellingier, Steven Greer, Gregg Braden and Dave Schmid.

## **Oct 2<sup>nd</sup> 2024 6:00 am, San Jose, Costa Rica – VIP Tickets**

A rail track has been placed at the edge of the arena in the Costa Rica Stadium. On this rail there will be a steam locomotive which pulls 10 carriages and a 'heart' shaped platform. The platform can move up and sideways towards the audience. In the carriages people can have another unprecedented experience. Through audio and video we will connect the people in the carriages in pairs of two with two other people somewhere in the world.

The people who are allowed in these carriages will have VIP passes, which means 'Very Inspired Person'. People will pay extra for these 'VIP' tickets, however, they pay a percentage of their monthly income, so there is equality in opportunity. Within the Sustainable World Project we aim to inspire people into new paradigms created from a higher consciousness. Few aspects of this new paradigm are an increase in equality, transparency and a reduction in systems of control.

## **Oct 2<sup>nd</sup> 2024 8:00 pm, San Jose, Costa Rica – Light Effects**

The light effects in most of the locations around the world will bring an incredible atmosphere. As preparation is going on worldwide, the Primary Continent Leaders for Central America are testing some of the light effects in the stadium in San Jose. The whole stadium is in a 'Disney' like atmosphere. We see Eric, one of the primary leaders of Europe on the big screen. “Christmas is early in San Jose!”, he is joking.

The Primary Leaders are the heroes of the awakened youth! Actually, they are everybody's heroes! However, they make sure they turn this around very quickly. The way they interact with people turns every day people into heroes. And that's who we ALL truly are.

## **Oct 2<sup>nd</sup> 2024 10:00 pm – Unprecedented Experiences**

We have been doing these worldwide interactive events for many years now. Initially people's minds cannot fathom a world that works for all. It literally does not fit in our lower egoic consciousness. How to empower people so they start believing we CAN create this world? We empower people by having them remember who they truly are. We are consciousness and all consciousness is connected as one. Every person is connected to all that is. Every person can therefore influence all that is. That is how powerful you truly are!”

Belief follows experience. That's why our events are about creating unprecedented experiences of Unity Consciousness. In 1997 the unprecedented experiences in my Reiki weekend changed my entire life. If we empower a critical mass of 9000 young people worldwide, then it WILL not only change their entire life, but as consciousness is connected as one, it will impact the collective consciousness and it will change the lives of all people worldwide. All people will be empowered to create a sustainable world!

## **Oct 2<sup>nd</sup> 2024 10:00 pm – No Matter where you are**

People are joining online from many different locations worldwide. Some young people join from their secret hiding spots where they always hang out with their best friends. Other people setup their desktop at that cozy place in the attic. Again others take their laptop, tablet or phone and go to their favorite spot in nature.

Many people simply join from the convenience of their living room. Maybe they dim the lights and light a candle. Let it be 'heart shaped' for this event!

We expect more than 6000 inflatable Airscreens so people can join the event in nature while being with their favorite community; the people they love most; the people they feel safe with most!

## **Oct 3<sup>rd</sup> 2024 6:20 pm, Dubai, U.A.E. – 10 Mins before the Start**

Tonight we have nearly 3000 planes, trains and automobiles joining in. A few yachts are also connecting to the event. It is after all not that complicated. You just need a screen, a computer, a camera, internet connection, microphone and speakers.

Some of the public transportation companies worldwide are offering their travelers an opportunity to connect to the event. Emirates has equipped 2 planes that fly from Dubai during the event, so all travelers can enjoy unity consciousness while traveling to their location. The car manufacturer Saab has installed screens in the headrests of the front chairs of their bio hybrid convertible cars. This way 2 people can join the interactive events from the back seat.

When you choose to participate in a plane, train, bus or other location with multiple participants, the system automatically connects you to the other participants on your location. You can enter your seat number and that way easily find and connect with likeminded people. Likeminded people who also care about our world. This way new friendships are easily made; new hearts are easily connected.

## **Oct 3<sup>rd</sup> 2024 7:55 pm, Bangalore India – New Energy Solutions**

It is 7:55 pm local time in Bangalore. Five minutes before the start of the event. The 'Sustainable World' theme plays in the background and a soft and excited whisper is in the air.

From the 'Global Empowerment Room' in the Chinnaswamy stadium we are looking at one of the six screens and projectors. We are happy with our three new energy solutions to power them. To power the stadium we are using one generator that gets its energy from the zero point energy field. This technology has finally been released to the public. It is so powerful that one device the size of a small car can power the entire stadium.

The moving 'Heart' shaped platform is powered by 5 QEG's. As backup we have the new electricity generators from GDS Technologies in Canada. These generators run on water and have zero pollution.

### **Oct 3<sup>rd</sup> 2024 8:00 pm, Bangalore, India – The Start**

The countdown of the event starts. 10, 9, 8, 7, 6, 5, 4, 3, 2, 1. On the big screens we see the stadium in Hong Kong. We hear an impressive voice saying: “FREEDOM, ABUNDANCE, LOVE. THIS, IS FOR EVERYONE!”

## **Oct 3<sup>rd</sup> 2024 8:00 pm, Bangalore, India – The Start**

The stadium in Bangalore is one of the ten stadiums worldwide hosting the event. We look at the huge inflatable Airscreens in the Chinnaswamy stadium. We see 10 squares representing the ten leading locations.

Worldwide we hear the 'Sustainable World' theme connecting people's hearts. The first unprecedented experience overwhelms us. It is 9:30 am in Arlington, 11:30 am in Rio, 4:30 pm in Frankfurt, 8 pm in Bangalore, 9:30 pm in Jakarta and 10:30 pm in Shanghai. There are 116.788 locations, hosting 3.456.128 people in 212 different countries.

## **Oct 3<sup>rd</sup> 2024 3:30 pm, Dublin, Ireland – the Start**

All locations worldwide display the Primary World Leaders of the event. At a THRIVE Empowerment Center in Dublin we see Joe, Amir, Mahoro, Karin and Kaori on the big screen. Mahoro says: “Lets start with closing our eyes for a moment and take some deep breaths.” Our consciousness shifts from an impressive and loud start to a profound quietness. We move deeper into the present moment.

In the last months everywhere around the world new locations have been popping up. Existing big screens are hooked up to the internet, cameras are installed and speakers and microphones are connected.

At many locations you just need to plug in your personal headset and you are all set to join these worldwide interactive events.

Watch a [Visualization video with our vision for 2021 to 2026](#)

## **Oct 3<sup>rd</sup> 2024 3:30 pm, London, UK – the Start**

The moment Mahoro is seen on the big screen, the audience in a London movie theater starts applauding. There is a buzz worldwide about humanity uniting. We are all very aware that an unprecedented transition is unfolding. It is clear that by September 2026 we will have reached the critical mass of 9000 Young World Leaders. Worldwide we see people wake up with incredible speed. Every day thousands and thousands of people become active participants in creating a world that works for all people. And that is just what we see happening around us. The real numbers must be way higher!

Many movie theaters around the world are transforming into interactive locations where people come together to connect with their fellow human beings; where people come together to experience our true state of oneness. The pilot events of the last years have shown that in a space of unity consciousness new forms of collaboration are manifesting very fast. This leads to a lot of positive action worldwide.

## Oct 3<sup>rd</sup> 2024 10:30 am, Guadalajara, Mexico – the Start

Around the world many mobile locations are deployed. Trucks and trailers are used to reach out to more remote communities. At Plaza Teatro Degollado in Zapopan, near to Guadalajara a 'Sustainable World' truck sponsored by Samsung has brought the largest Samsung screen.

The left side of the truck is opened and the screen displays some of the cities being connected. Every capital of every country is already participating in these events. In the years to come we expect to include every city and every village in ALL countries worldwide.

At Plaza Teatro Degollado 276 people are watching the Samsung screen. Well, actually not all 276, some of the men are not looking at the screen. They are looking at the ladies presenting the screen.

**Oct 4<sup>th</sup> 2024 0:32 am, Sydney, Australia – Two Mins after the Start**  
All screens now switch to Sydney, Australia where we see the Opera House. The twin brother of Amir, a graduate of SWU, now asks: “What is present? This means what are you thinking and how are you feeling right now.” Then he smiles and adds: “The truth is always good!”

### **Oct 3<sup>rd</sup> 2024 11:33 pm, Tokyo, Japan – Expressing Love**

Three minutes and 10 seconds into the event. We switch to Tokyo, Japan. We see Takara. She says: “Kon'nichiwa, watashinon namaeha Takara. I live in Tokyo, Japan. What's present for me is a love I have never felt before; a love for all people!” She looks into the camera and with the warmest smile I have ever seen, she says: “I love you!”

Aishwarya from Sri Lanka thinks: “Wow, I realize that Takara does honor the meaning of her name! I am 6658 kilometers away, but her love is so powerful that it touches my heart right here in Colombo . . . and I am sure I am not the only one experiencing this! Takara is indeed a treasure!”

### **Oct 3<sup>rd</sup> 2024 5:33 pm, Nairobi, Kenya – Expressing Gratitude**

Three minutes and 30 seconds into the event. We switch to Nairobi, Kenya and we see Amanika. She says: “My name is Amanika. I live in Nairobi, Kenya. I am so grateful for our host setting up this interactive location so all of us could join this event! Thank you so much Yongo!”

### **Oct 3<sup>rd</sup> 2024 5:33 pm, Tel Aviv, Israel – One World, One Family**

Three minutes and 40 seconds into the event. We switch to Tel Aviv, Israel and we see two young boys being the best of friends. Amiram speaks: “My name is Amiram. I am living in Tel Aviv and this is my best friend Abdul from Palestine. I am present that we are all brothers and sisters. I think some of the adults though need to wake up. Do not allow yourself to be influenced by the media! Realize that we are 'One World'. We are 'One Family'!”

Worldwide some of the adults confront for a moment how much we have to learn of the young people around us.

### **Oct 3<sup>rd</sup> 2024 10:34 pm, Singapore – Contributing Celebrities**

We have invited some of the famous people around the world to do a shared activity with our participating audience. They can pick any flavor they like. Activities like singing, dancing, dialogue, art, praying, chanting, meditation, healing and more. Any activity is possible. The activity is just the excuse to be together. Today, in Skypark, Singapore, Celine Dion is co-hosting the event. She sings: “Because you loved me!”

## **Oct 3<sup>rd</sup> 2024 7:34 am, San Francisco, USA – a 3D Hologram**

The 10 leading locations have 3D hologram solutions on the moving platforms so audience on these locations can see any or all of the primary global leaders on their local platform. The people in the San Francisco stadium see John, Jane, Russell, Erin, Brittany and George in reality on the San Francisco platform. On a big screen on their platform these 6 primary leaders can see the audience of the location where they are projected as a 3D hologram.

All primary leaders are following a time line meticulously planned from second to second. Right now they all keep on being 3D projected to the 10 different leading locations. “Good Morning San Francisco!”, we hear from the American primary leaders. Then on their screen they see they have switched to San Jose. “ Buenos Dias San Jose!”, the American primary leaders say while being 3D projected in San Jose.

### **Oct 3<sup>rd</sup> 2024 10:34 pm, Hong Kong, China – the Moving Heart**

Four minutes and 10 seconds into the event. Shen Long is sitting in the audience in Hong Kong. He is a dear friend of the 4 primary leaders. He sees them standing on the moving 'Heart', which is coming right to the stands where he is sitting. Suddenly out of nowhere, but on the beat of the music, one by one he sees the 6 leaders from San Francisco appearing on the platform. They say: “晚上好香港 Wǎnshàng hǎo xiānggǎng => Good Evening Hong Kong”

Using the 3D hologram solution all our primary hosts 'move' comfortably around the world. When a person is addressing all people, he or she is 3D projected on the other 9 leading locations and displayed on all screens worldwide. Sometimes when other activities are happening, they take time to interact through the hologram solution with a specific audience or a specific person on one of the 9 other leading locations.

### **Oct 3<sup>rd</sup> 2024 5:35 pm, Moscow, Russia – Anything is Possible**

Joe is the joker. He tells the audience in Moscow: “Today, I brought a friend of mine. He weighs 300 kgs. His name is Tigro. Would you like to meet him?” The audience shouts: “Da!!!” Suddenly we hear the roar of a tiger and we see a huge tiger 3D projected on the platform.

The Young World Leaders always use humor to disarm our egoic conditioned minds. They love throwing in some unexpected surprises. It creates an atmosphere where anything can happen. And this is exactly what we want people to inspire into. A world where anything is possible. A world where miracles unfold daily. A world that works for all people.

### **Oct 3<sup>rd</sup> 2024 5:35 pm, Kigali, Rwanda - Being Unstoppable**

The big screen switches to flight WB-110 from Kigali to Cape Town. We see Mahoro, Gift and Stella flying out to prepare for Empowerment Camp 8 in South Africa. Mahoro and the African Primary Continent Leaders are unstoppable. Since 2020, using inflatable Airscreens, they have facilitated online training for 15.763 young women and men. These young people are literally changing Africa. Five hundred new energy solutions, 16.778 vegetable gardens and 215 THRIVE Empowerment centers have lifted hundred thousands of people out of poverty.

### **Oct 3<sup>rd</sup> 2024 8:35 pm, Dhaka, Bangladesh – Powerful Participation**

Karin jokingly asks: “Who wants a world where all hearts are connected?” The participating audience always has a way to interact. They interact through their cell phones, desktops or laptops. Some locations have chairs equipped with interactive remote controls. Imran from Dhaka uses his Ipad as a remote control. He enters 'Yes, I would like a world where all hearts are connected'.

## **Oct 3<sup>rd</sup> 2024 6:35 pm, Dubai, U.A.E. – All Hearts Connected**

In Dubai Salma and her family are following the event from their home. On her tablet Salma sees the stadium in Dubai. All screens display a beautiful heart. Salma wonders: "How amazing would it be if all people could love each other without any barriers!" As she listens to Karin, she is more and more certain that this will happen. She thinks: "I am already feeling so much more connected to everyone around me! This feeling is so liberating." A big smile lights up Salma's face.

Being from a more orthodox background, it was difficult for Salma to convince her family to allow her to join. Salma thinks: "Sitting here, experiencing the connection with so many others, I now realize that there is a beautiful and powerful world beyond my small bubble. It was really worth the effort!"

### **Oct 3<sup>rd</sup> 2024 10:35 pm, Shanghai, China – Mass Meditation**

Young World Leaders have connected with Meditation groups all around the world. On a daily base these groups are entering unity consciousness altering the collective consciousness in our world. On the big screen we see 5000 people meditating in Shanghai.

### **Oct 3<sup>rd</sup> 2024 11:35 am, Rio, Brazil – Estadio Nacional**

Five minutes into the event. Eight Young World Leaders are working in the stadium in Rio to manage all incoming and outgoing audio and video. One of those Young World Leaders is Tasmia from Rio. In 2020 she started her training for hosting these events in the Young World Leader Empowerment Camp in Peru.

## Oct 3<sup>rd</sup> 2024 8:05 pm, Bangalore, India – Fireflies Ashram

In 2022 the Young World Leader Empowerment Camps had become very popular. We had so many people joining the interactive events in our camps that the 'Big Hall' at Fireflies Ashram, which could host 340 people, was not sufficient anymore. We had to shift the Camps and the interactive events to the huge open field next to the ashram, where we deployed the largest Airstream to connect with our online Participating Audience of 500.000 people.

### **Oct 3<sup>rd</sup> 2024 4:35 pm, Cape Town, South Africa**

Five minutes and 10 seconds into the event. The screen switches to Cape Town. We see the city. We see Mahoro, Gift and Stella, three of the seven Primary Continent Leaders for Africa. Then, the screen splits into two squares. The 2nd square now displays the Opera House where the Concert Hall is fully booked with 2679 people.

### **Oct 3<sup>rd</sup> 2024 10:35 am, Ottawa, Canada – Inflatable Screens**

In Ottawa we see a huge Airscreen, which now shows the 3<sup>rd</sup> square, the Taj Mahal, representing Agra with 5000 participants. Then we see the 4<sup>th</sup> square, the Big Ben, representing London. Then we see the Pyramids in Egypt, the Eiffel Tower in Paris, the Golden Gate bridge in San Francisco. The screen now shows 9 squares and the squares are ongoingly changing to display all the different locations in our world.

## **Oct 3<sup>rd</sup> 2024 4:35 pm, Lohr am Main, Germany – One Family**

In just 5 seconds we have already seen hundreds of famous landmarks representing interactive locations. Those landmarks have all been transformed into locations for participating in these worldwide interactive events.

On screen we see a family in Lohr am Main participating in the event from their garden with a Nano Airscreen. It is overwhelming to get that almost 3.5 million people are tuning in from more than a 100.000 different locations. This event is truly bridging worldwide geographical boundaries. Different communities have now become one family.

Whether people gather at their schools, their homes, meeting rooms, club houses or movie theaters; they are all connected to our Young World Leaders. The Young World Leaders play the key role here. By inviting their family, best friends, old schoolmates and more, they are the global 'glue' connecting people's hearts!

## **Oct 3<sup>rd</sup> 2024 9:35 am, Arlington, USA**

Five minutes and 25 seconds into the event. Worldwide we see Mahoro, and all the other primary leaders on the screen. Not a whisper is heard. We sense the excitement in the air. “Welcome my brothers and sisters! My name is Mahoro. I am the host of the Young World Leader Program worldwide. Today we have our 1672<sup>nd</sup> Global Interactive Event. What started on Oct 6<sup>th</sup>, 2003 with 10 children of Ahaan Foundation meeting 5 children of the THRIVE Empowerment Center in Holland, has now become a worldwide encouraged interactive event.”

Mahoro speaks a few words in more than 50 different languages. She uses this so she can build relatedness with most of the people on our planet. English, Spanish, French and Chinese are just the start. I heard she aims to learn some basic words of every language worldwide.

## **Oct 4<sup>th</sup> 2024 3:36 am, Auckland, New Zealand – A Safe World**

Tonight, lets start with talking about our purpose!", Mahoro says, "Who wants to tell us your purpose?" All 116.788 locations hear Mahoro's request. On every location people are raising their hands. Within a few seconds blinking squares are popping up from locations requesting to talk. We see a blinking square saying 'Auckland, New Zealand'.

As these events have grown organically from the communities of the Young World Leaders, there is a very high level of safety. Almost everybody feels comfortable enough to speak up. The Young World Leaders often address how the judgment of egoic consciousness had shaped our world. The participating audience has become very aware of that. Worldwide people are learning to become an observer of the mind. They are learning to dis-identify from thought. When we see judgmental thought, we can make sure that those thoughts do not become words and actions.

### **Oct 3<sup>rd</sup> 2024 7:35 am, Los Angeles, USA – Jane's Purpose**

Five minutes and 50 seconds into the event. Jane who is living in LA is joining the event from her Fitness Center. When she hears Mahoro making the request, she immediately lets the SWIC (Sustainable World Information Center) know she is ready to talk. The screen switches to Jane and now we see Jane at the fitness center looking at her screen.

Jane says: "I love inspiring people to take good care of their bodies!" Then she looks straight into the camera and says: "Why? Because you are worth it! You are the most wonderful and most worthy person in the whole universe. We all are!"

### **Oct 3<sup>rd</sup> 2024 7:36 am, San Jose, USA – Cisco's Support**

Six minutes and 10 seconds into the event. We switch to headquarters of Cisco where Dirk speaks: "This is Dirk from Cisco Headquarters, San Jose. This morning I spoke to John. He said: "Cisco will support the creation of a world that works for all! We are going to do whatever we can to make this dream come true!" Worldwide people go crazy cheering and shouting. Cisco's support will make a very big difference.

**Oct 3<sup>rd</sup> 2024 10:37 am, Framingham, USA – Prison Empowerment**  
Joe jokes: “Lets switch to the White House.” As the screen switches to an overcrowded prison in Massachusetts, prisoners are almost falling from their chairs laughing after hearing Joe. Elisa, barely able to stop laughing, says: “My name is Elisa. I am a 'guest' of MCI Framingham. My purpose is to collaborate with Simone to get more prisoners involved and inspire other prisons to also join these events!”

**Oct 3<sup>rd</sup> 2024 3:37 pm, Lisbon, Portugal – Healing the Sick**

On screen we see a hospital in Portugal. True Vision of Peace and others are supporting the disclosure of new healing technologies. These technologies however are not yet available in every country.

We see a young girl participating from her bed in the hospital. She starts speaking: "My name is Charlene. I have watched many videos of Steven Greer and read his book 'Hidden Truth Forbidden Knowledge'. My purpose is to cause full disclosure of all the new healing technologies from Unacknowledged Special Access Projects. These are 'black projects', hidden for the public. These new healing technologies should be made available for the people. I know my cancer can be healed. She stops overwhelmed by emotion and starts crying: "I for sure don't want to die!"

### **Oct 3<sup>rd</sup> 2024 3:37 pm, Lisbon, Portugal – Unprecedented Power**

After hearing Charlene everybody worldwide is quiet. It is at these moments that I know we are deeply impacting the collective consciousness. Something very powerful is going to come out of Charlene sharing her humanity. I am sure that in one of the next events we will hear more about these new technologies.

### **Oct 3<sup>rd</sup> 2024 10:38 am, Montreal, Canada – Including All Ages**

The screen switches to an old age home in Montreal. Janet, a very active senior citizen, stands up and says:” My name is Janet. I live in Montreal, Canada. My purpose is to have more old age homes join these events. So many elderly people feel alone, ignored and not valued! I want to see the light shine in their eyes too!”

### **Oct 3<sup>rd</sup> 2024 6:39 pm, Dubai, U.A.E. - Emirates Stadium**

Nine minutes into the event. Mahoro speaks: “I request every participant to talk to the person sitting next to you. If no one is sitting next to you, then go online and make a request for an Online Buddy.”

We have a database with people who request to interact online with others. The database gets filled when the event starts. People enter their name, location, country, Skype id and WhatsApp number. Skype and WhatsApp are used parallel to our video conferencing platform on Zoom and our live broadcasting.

The events need only one thing to make it very powerful and that is the experience of unity consciousness. What is needed for that is to transcend egoic consciousness. We do so through active participation in shared activities. The frequent interaction between online buddy's, guided by powerful dialogue of the host always guarantees these unprecedented experience.

### **Oct 3<sup>rd</sup> 2024 10:39 pm, Beijing, China – Online Buddy System**

Joe in Utah, had already made the request through our website [www.sustainableworldproject.com](http://www.sustainableworldproject.com) and he received the Skype id of Kiyana in Beijing, China. He calls her and says: “My purpose is to inspire people to eat healthy non GMO food.” Next, Kiyana says: “My purpose is to inspire people to become powerful leaders.”

Language is either in English or people can speak their local language and have it online translated through the SWIC. (Sustainable World Information Center) The SWIC uses automated speech translation and volunteers to ensure an accurate translation.

## Oct 3<sup>rd</sup> 2024 5:41 pm, Ankara,Turkey - Transformation of Religion

While people are sharing with their buddies the squares on the screen keep on switching. In Ankara, Turkey, Fatima sees above 5 squares.

Fatima has heard that now people can join the events from some of the temples, churches and mosques around the world. She also heard that the amount of these locations is growing rapidly. The division religion had created for so long is disappearing. On screen she sees leaders from different religions united as one.

## **Oct 3<sup>rd</sup> 2024 5:41 pm, Moscow, Russia – Active Participation**

In the stadium in Moscow 50.000 people hear Mahoro's request. They turn to the person sitting next to them. To move away from the old paradigm of a 'Judgmental Inactive Audience' and strengthen the new paradigm of 'Non-Judgmental Active Participation' the audience can participate in many different ways. For this request people can take a 'Selfie' and send it with their name, country and purpose in text or as spoken audio to the Sustainable World Information Center.

When requests are made the 'Selfies' and answers are displayed on the big screen while we hear peoples recordings in all the different languages. Sometimes the screen shows per person, but mostly in multiple squares.

## **Oct 3<sup>rd</sup> 2024 4:42 pm, Rome, Italy – Finding your 'Selfie'**

Twelve minutes into the event. After just a few seconds the 'selfies' are starting to show on all the screens worldwide. David, who is following the event with his friends from Rome is trying to find his 'Selfie' among the 2500 people being displayed.

The Young World Leader team which is working with Cisco on all the technology, is currently working on a new version of our interactive software. In this version people get info returned from the SWIC (Sustainable World Information Center). They will be able to see a blinking square to locate themselves.

## Oct 3<sup>rd</sup> 2024 8:13 pm, Bangalore, India - Stella

Thirteen minutes into the event. Suddenly we see blinking squares on the big screen. New York, Rome, Bangalore, Sydney, Tokyo. The volume of the music is increasing. The screen switches to Fireflies Ashram in Bangalore, India.

For a second we see the city of Bangalore, then the Fireflies Ashram entrance, then one 23 year old lady standing at the microphone. The 3.4 million people of all countries in our world are watching her. She says: "Hi, my name is Stella. I am 29 years old and I came to Bangalore, India for Primary Leader Training in October 2019.

### **Oct 3<sup>rd</sup> 2024 8:14 pm, Bangalore, India - Self Value is Key**

Stella continues: "In 2019 I spent 2 months at Fireflies Ashram. It was here that guided dialogue and beautiful nature inspired me. It was on this day that I stopped thinking small about myself. Instead an inspiration was awakened, an inspiration to become a powerful change maker. A change maker with a deep love and respect for humanity and nature. In the guided dialogues I had at Fireflies Ashram I learned to take initiative and follow that inspiration. The result is that now, 5 years later, 1500 young people from Bangalore and 5000 students abroad, are working together with Fireflies Ashram, Vidyaranya and other NGO's to create a sustainable Karnataka and a sustainable India.

In 2020 we made a start in Bangalore. We launched a project to make sure that each and every child in Bangalore has access to food, a loving community, learning and shelter; to make sure that each and every child in Bangalore learns to value oneself and therefore each other, our environment and our world."

## **Oct 3<sup>rd</sup> 2024 8:15 pm, Bangalore, India – Worldwide Inspiration**

Fifteen minutes into the event. When Stella pauses, Mahoro says: “In our Young World Leader Empowerment Camps we ask the participants to start their dream project for changing our world. During and after the camps we support these projects through our Projects Program in our interactive events. We also support the projects of True Vision of Peace and many others. In our events you will hear the inspiring initiators of many different projects serving humanity, just like this project of Stella. Who is inspired by this young lady?” Immediately people from around the world inform the SWIC.

We hear the 'empowerment music' and the screen switches to Frankfurt, Germany. Silke and Karin speak: “Wunderbar Stella. Du bist ein inspirierender Führer!” We switch to Lima. We see the 12 primary leaders for South America. Diana speaks: “Excelente! Usted es una inspiración.”

## **Oct 3<sup>rd</sup> 2024 8:16 pm, Bangalore, India – the Power of Community**

Onscreen we see a percentage of the people who are inspired. It says 83.5% and the number is still increasing. Stella continues: “We started in 2020. Just Mahoro, Gift and I. Then, Abdallah and Joice also took up leadership. By the end of 2020 we had a hundred young people, who lived on the streets, living in an unused office building.

We found 5 facilitators who volunteer and 70 families who take turns in supporting with the food. With support of the city we have now transformed the building into a next THRIVE Empowerment Center. Currently we are training these youngsters to become Young World Leaders.” Stella smiles and says: “You should see them now. You will not be able to recognize them anymore!” On the big screen we see the group of empowered young people.

## **Oct 3<sup>rd</sup> 2024 4:47 pm, Frankfurt, Germany – Everybody is Worthy**

“Now, 5 years later, there are no more homeless children in Bangalore. We have 5 THRIVE Empowerment Centers spread all over the city which host anyone in need. Young or old, all ages are embraced. Everybody is worthy of having their basic needs met!

The work we are doing at Kabini for rural communities has more than quadrupled and we have started 5 similar projects. I am . . . .” Suddenly we hear the 'support music' and blinking squares are popping up all over the screen: Djakarta, Indonesia. Paris, France. Sydney, Australia. Shanghai, China.

All the screens around the world now switch to Sydney. The people in a THRIVE Empowerment Center in Frankfurt are watching the big screen. Bang, you see the city of Sydney, bang, you see the Opera House, bang, you see the 5 primary leaders for the Pacific area.

### **Oct 3<sup>rd</sup> 2024 10:48 pm, Kuala Lumpur, Malaysia – Overwhelmed**

Eighteen minutes into the event. In Kuala Lumpur the big screen shows Huizhong and the 4 other primary leaders. Huizhong, the Young World Leader on the left starts speaking: “Nii Hou! Waduh Mingzuh djou Huizhong. I was born in Hong Kong, but moved to Sydney when I was 10.

First let me say something to Stella. I congratulate you and your team. The love for nature and humanity, which I am seeing in all of you, will go a long way. It will make a huge difference for not only the city you are living in, but also the country and finally our whole world. What I love about you is that you are actually impacting people in a country that is not even your own. Do know, Stella, that you are not just a hero for Malawi or India, but you are actually a hero for mankind.”

Huizhong continues: “Stella, I have an uncle who has a friend in Bangalore who raises money for funding THRIVE Empowerment Centers. I will give him your details. Thank you so much for your passion. I am truly inspired by you!”

## **Oct 3<sup>rd</sup> 2024 8:48 am, Belmopan, Belize – More Support**

It is incredible how much we can do in our local communities if we get inspired and work together. Suddenly an unprecedented experience overwhelms Consuelo in Lima. She suddenly thinks: “I can see how these events will change our world. What is happening right here, right now, with Stella, will happen in every city and every village around the world. Wonderful great projects will be started by wonderful Young World Leaders and all will be supported by a huge worldwide caring community. “

We switch to Belmopan, Belize. On a big Aircscreen we see the primary leaders for transforming Central America. These awesome 6 Young World Leaders we met in our Young World Leader Empowerment Camp in Rio in 2021. Consuelo says: “Stella, we have 10.000 youth here in South America who will support you!”

 AUSTRIA	256	 SWITZERLAND	60
 THE NETHERLANDS	218	 ICELAND	58
 SWEDEN	208	 BELARUS	43
 ARMENIA	162	 UNITED KINGDOM	37
 HUNGARY	143	 ITALY	33
 UKRAINE	107	 MALTA	32
 NORWAY	83	 GERMANY	32
 RUSSIA	81	 GREECE	31
 FINLAND	72	 MONTENEGRO	30
 ROMANIA	72	 AZERBAIJAN	26
 SPAIN	70	 SAN MARINO	14
 DENMARK	68	 SLOVENIA	9
 POLAND	61	 FRANCE	2

### **Oct 3<sup>rd</sup> 2024 4:49 pm, Lausanne, Switzerland – Even More Support**

Nine teen minutes into the event. We switch to Lausanne in Switzerland. Bang, we see the lake of Geneva, bang, we see a crowd of people, bang, we see a Young World Leader saying: “Merci beaucoup! Merci beaucoup. Je suis un étudiant. Thank you! Thank you! I am a student at Brilliantmont. I will request our international school with 160 students to support your project. Stella, we will contact you tomorrow!”

The atmosphere of contribution is overwhelming. I close my eyes for a moment, take a deep breath and try to let in this powerful experience. On the screen we see the young World Leader and how many people per country still want to speak and offer support.

Amy and Teresa heard that the next event will have technology which will guide all people worldwide to synchronize their hearts by breathing in and out with a specific speed. How exciting is that?

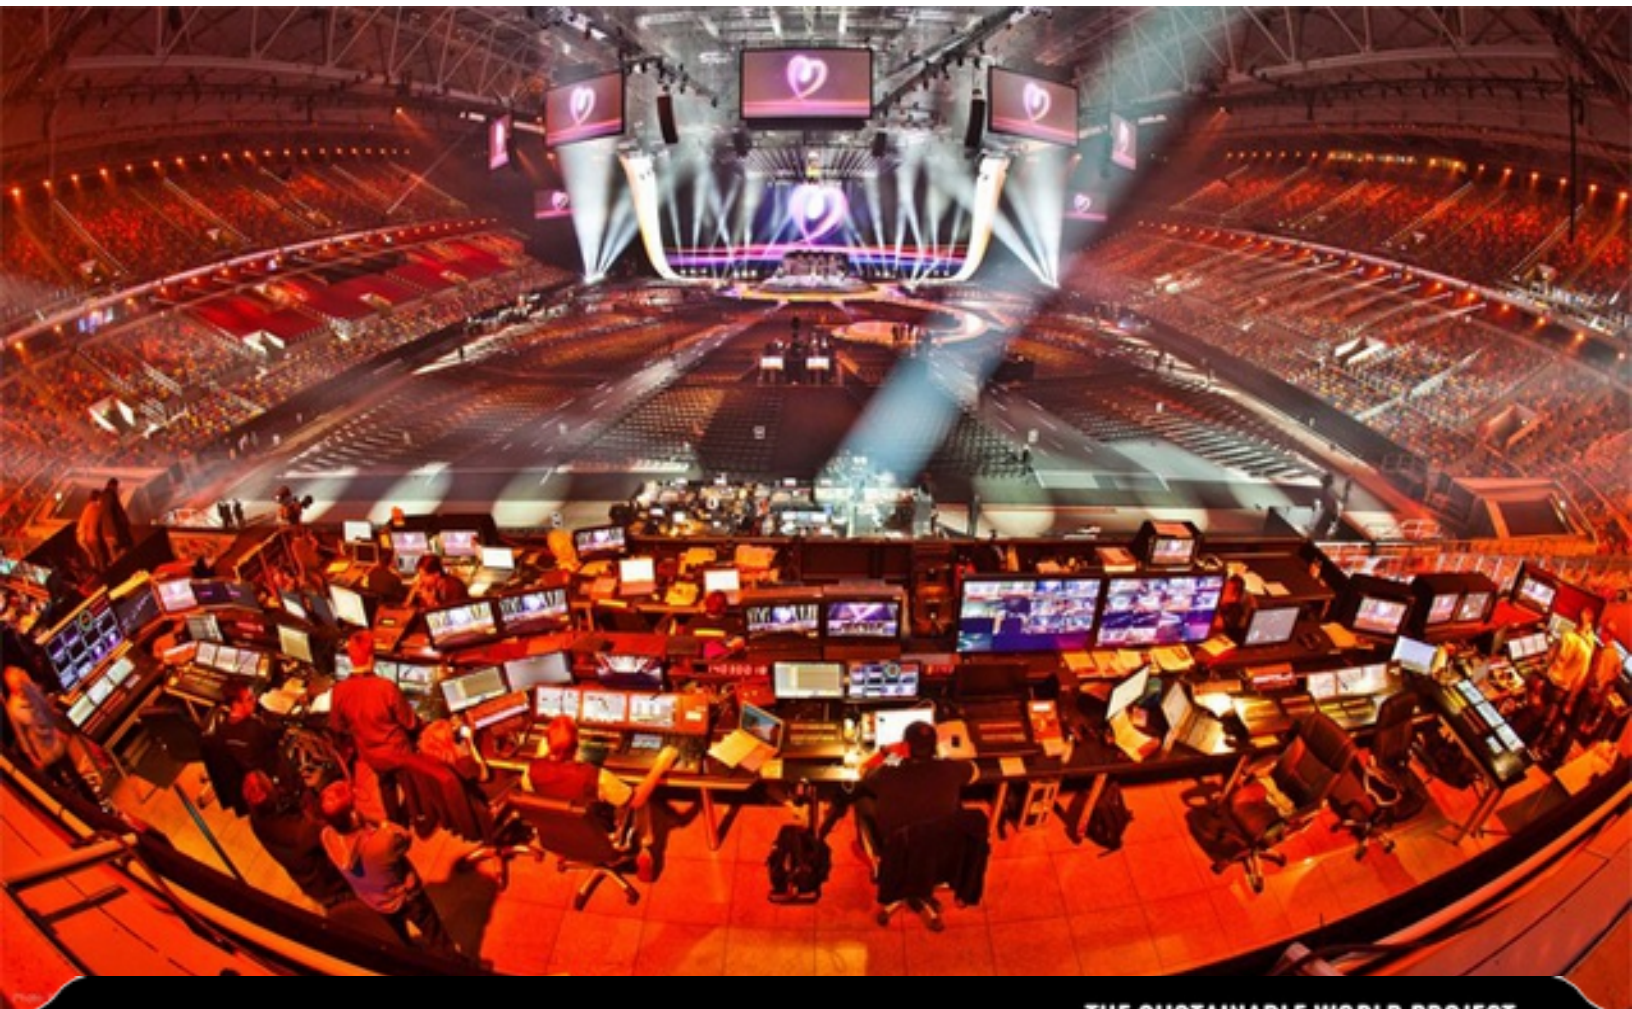

## **Oct 3<sup>rd</sup> 2024 6:50 pm, Dubai, U.A.E. – World Leaders in Action**

Worldwide the Young World Leaders are busy switching to all the different locations offering support. They are rigorously trained by Tani, one of the Young World Leaders from Bangalore, India.

Every 30 seconds we switch to a new location which offers support. In that time they take care of getting the camera to the person, correcting the failures of the automatic speech translation, managing the screens, talking to the other locations, restoring dropped connections and much much more.

On the big Aircscreen in Bangalore we see 11 of the 1600 amazing Young World Leaders in action. Without these courageous and committed young people these events would not have been possible.

**Oct 3<sup>rd</sup> 2024 4:51 pm, Brussels, Belgium - “We will support!”**

We see two students in Belgium using a tablet. David says: “We will support! We will come to Bangalore during our Christmas holidays!”

Every location is using different equipment. There are laptops, tablets and smart phones, which are used for mobile locations. This is for individuals or small groups. There are desktops and wide screen TV's, which are used to host a maximum of 20 people. There are bigger conferences having 20 Young World Leaders for managing 2,000 people on location. In stadiums there are 100 Young World Leaders to manage anywhere between 40.000 to 50.000 people.

In these events we mostly switch to locations which have at least one Young World Leader as a host so we ensure a high quality interaction.

## **Oct 3<sup>rd</sup> 2024 4:55 pm, Stockholm, Sweden – Outrageous Request**

Twenty five minutes into the event. Stella is looking quite overwhelmed. So far 10 locations have offered support. Mahoro says: “Stella there are 16.000 more people from a 134 different locations who also want to support your project.” Suddenly we hear the 'outrageous request' music. The huge Airscreen switches to Stockholm, Sweden.

In Stockholm, Tani addresses a hall of 10.000 youth inspired to become Young World Leaders. She says: “I have an outrageous request!” Millions of people immediately turn quiet. Full of anticipation they wait for Tani. Then Tani speaks: “Who wants to support a new project named 'The Transformation of Bangalore'?” People worldwide use their key boards, smart phones or remote controls and respond. The Young World Leaders are trained to think out of the box and always surprise us with these impossible projects.

## **Oct 3<sup>rd</sup> 2024 4:56 pm, Gdansk, Poland - Worldwide Support**

Jack and Joe, the 2 younger brothers of one of the Young World Leaders in Poland, are looking at the screen in their home in Gdansk. They cannot wait till they can join a next Young World Leader Empowerment Camp.

Among our 9000 Young World Leaders, some are aged around 10 years old and some are aged in their mid twenties. Leadership has no age. It is 'who you are being' that matters! Besides joining the Young World Leader Empowerment Camps in person, anyone of any age can go online and join the activities being done in the camp as participating audience. These activities initially are: dialogue, aerobics, dance, breathing, healing, chanting, meditation, singing, working on projects and watching movies and documentaries.

Squares are popping up all over the screen. A white number is increasing rapidly. In 5 seconds it says 225.349 people will support to transform the city of Bangalore.

## **Oct 3<sup>rd</sup> 2024 8:27 pm, Bangalore, India – the World Celebrating**

We are 27 minutes into the event. Again we experience the power of unity consciousness. Worldwide 225.349 people will unite to support the transformation of Bangalore. Stella is moved to tears because she now knows her city will transform into an unimaginable paradise.

On the big Aircscreen we see and hear people cheering. We see the amount of squares increasing to 200 and they switch rapidly showing thousands of locations worldwide. Then, for one moment they open a 1000 audio channels and you hear the world celebrating life. It is an experience you will never forget. An experience of being profoundly related to all other human beings.

### **Oct 3<sup>rd</sup> 2024 4:58 pm, Gaborono, Botswana – a Critical Mass**

After the initial promotion for the Young World Leader Empowerment Camps the growth is now fully organic. It is the unprecedented experiences of the activities and interactive events we do in the camps and on our online Empowerment Platform that inspire young people worldwide. This inspiration calls them into action. They reach out to their communities and invite them to join in creating a sustainable world. In 2024 we had grown to 1600 Young World Leaders. In Gaborono, amongst 15.000 people, 15 year old Seble is seeing a 30 second trailer of how our world is changing.

## **Oct 3<sup>rd</sup> 2024 9:59 pm, Jakarta, Indonesia – New Energy Solutions**

Worldwide the screens switch to Jakarta, Indonesia. We see Deggory and Chinmay, the two Young world leaders from New Energy Solutions. They are working together with three Young World Leaders from Jakarta to open source another new energy device.

We see a futuristic device on a rooftop being 3D projected and displayed on all screens worldwide. The consciousness of 3.5 million people is impacted. As all consciousness is connected we are also impacting the collective consciousness. Yes! People knowing that this exists brings us another step closer to new energy devices being released. This will play a major role in creating a world that works for all people by the year 2050.

### **Oct 3<sup>rd</sup> 2024 7:30 pm, Gojal, Afghanistan - Shared Activities**

John Travolta, one of the world's best actors and dancers is teaching the Sustainable World Tap Step. We have 3734 locations joining in. Today he is teaching beginners level. In other events he also teaches advanced levels. The shared activities are guided by dialogue of the Young World Leaders. This ensures a dialogue which transcends Ego and makes everybody feel safe, respected and valued. George, one of the American primary leaders asks: "What is present?" Ameena in the Misgar Valley of Gojal answers: "It is a dream come true to dance with John!" Her face shows how touched she is by this opportunity.

## **Oct 3<sup>rd</sup> 2024 6:05 pm, Kuwait – Sharing our Humanity is Key**

Thirty five minutes into the event. Elise from Framingham, with outside help from Simone, has inspired two prisons to do an interactive activity in the context of creating a Sustainable World. The activity can have an element of show, but it should also have an element of participation, so people worldwide can join the activity.

Rehan from Al Wafrah, Kuwait is seeing the prisoners do a dance of Micheal Jackson. Just before they start the local host in Kuwait asks Russell, one of the prisoners: “What is present?” Russell says: “I feel a bit nervous.” Rehan thinks: “Wow, these prisoners are just normal human beings.” One never knows what a moment of inspiration can bring for a participant. This event is the start of Rehan becoming a world renowned activist to heal and release ALL prisoners.

Once you understand that all minds are connected it becomes clear we have to heal all minds in our world. Turning our back to people by locking them up does not solve a problem; it actually creates one.

**Oct 4<sup>th</sup> 2024 1:10 am, Sydney, Australia – Watching Together**  
Forty minutes after the start Karin speaks: “We are scheduling watching movies together worldwide. Great documentaries will be shown to awaken and inspire humanity. I know my life completely changed after seeing the Thrive documentary of Foster and Kimberly Gamble, the Ubuntu Contributionism work of Michael Tellingier, New Earth Nation of Sacha Stone, the Venus Project of Jacque Fresco, the Disclosure Project of Steven Greer, the Sedona Connection of Dave Schmidt and more . . . “

On October 10<sup>th</sup> 2024 8:00 pm local time in Sydney, we will watch the movie 'Thrive' again. Anybody who wants to join worldwide is welcome. Check out [www.sustainableworldproject.com/joinevent.htm](http://www.sustainableworldproject.com/joinevent.htm) for all practicals.

### **Oct 3<sup>rd</sup> 2024 5:11 pm, Bayda, Libya – 1% of the World Population**

Forty one minutes into the event. On an Aircscreen in Bayda, Libya we see Joe. He speaks: “I will now show you how powerful we are if we unite. Right now, call your best friends and tell them how much they mean to you. Then invite them to join us. Do it now. I will wait right here!” Onscreen we see people worldwide on the phones. Over the next 5 minutes the amount of participants increases from 3.4 million to 5 million. The new participants are lovingly included. They immediately experience being a valuable member of our global family.

Five minutes later again we ask everybody to invite their best friends. Within 2 minutes we are reaching 7 million people. If we reach 80 million people then we reach the next critical mass of 1% of the world population. This will even more speed up global transformation. The atmosphere is one, I for sure have never experienced before. I feel like I am in love; in love with all human beings. I do not know what will come out of this event, but I am sure that it will be something very powerful and very positive for our world.

## Oct 3<sup>rd</sup> 2024 7:21 pm, Yerevan, Armenia – Shared Activities

Fifty one minutes into the event. On the big Aircscreen we see Narek in Armenia. He is smiling. Narek is happy that he was invited by his best friend to join this event. After this overwhelming experience of reaching 7 million people, Savitha, one of the Young World Leaders in Armenia, asks: "Talk to the person sitting next to you or your 'Online Buddy' and tell what is present for you? Take 1 minute each."

To inspire the audience to participate in shared activities we have a demo of our Sustainable World Unity Step Program. Today in the demo we have 245 Fitness Centers, 512 schools, 3837 homes and 267 other locations joining. We see 6 Young World Leaders standing on a platform which is actually a screen. It just changed from a big red heart to a map of the world. In few seconds the Young World Leader branded steppers, which are used worldwide, will be placed on the 6 different continents. Narek thinks: "Wow! How exciting! I want to join!"

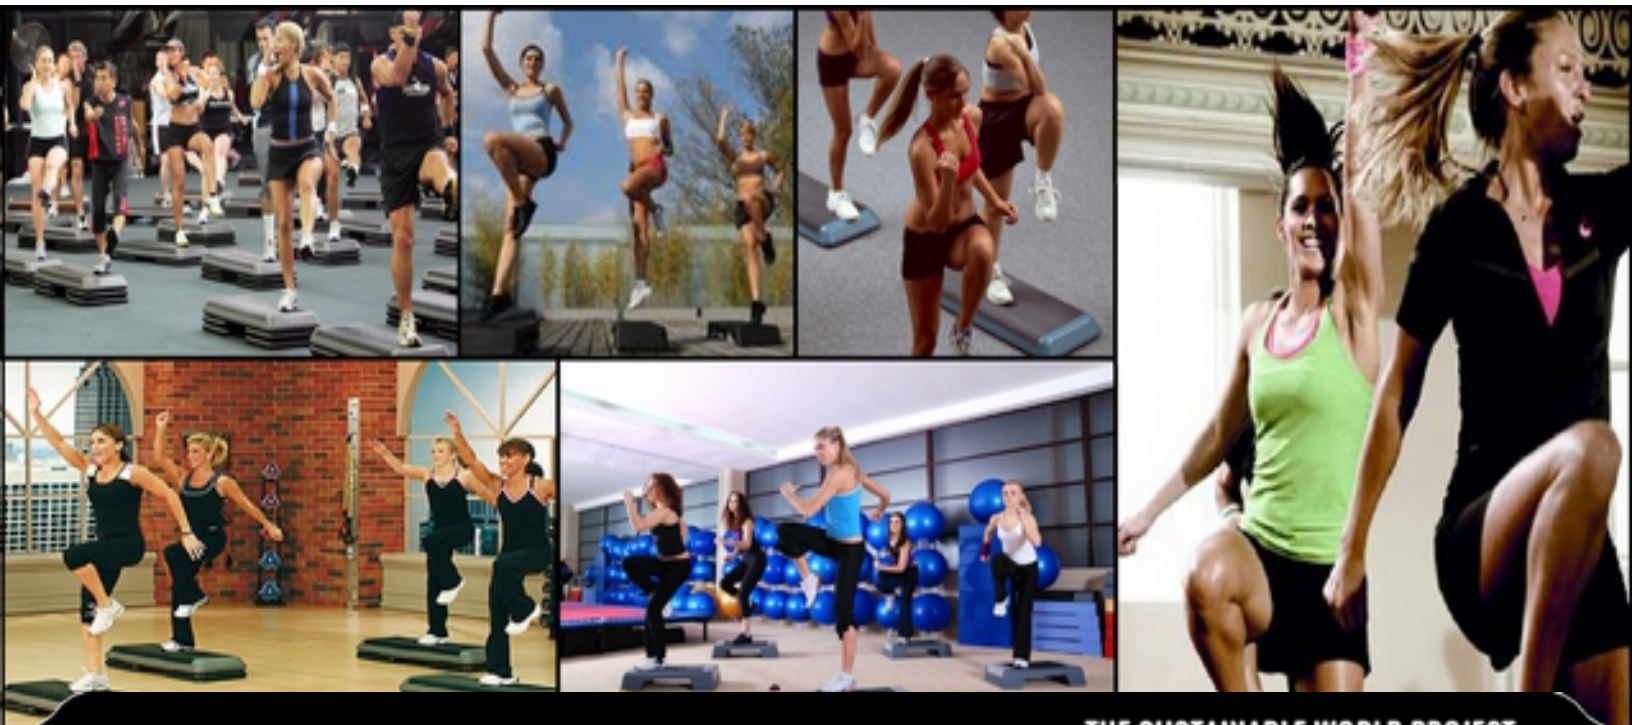

## **Oct 3<sup>rd</sup> 2024 11:23 pm, Manila, Philippines – Non Judgment**

Fifty three minutes into the event. A fitness center in Manila, Philippines is joining the live demo of the Sustainable World Unity Step Program. Worldwide online interactive aerobics classes have been started ever since the 2<sup>nd</sup> Young World Leader Camp in 2020.

When we are teaching the Sustainable World Unity Step Program we always do so online. Fitness centers, schools, homes or other locations can join. Most locations have one local Young World Leader supporting the global facilitator. That is however not mandatory. Anyone can join the interactive shared activities. The global facilitator is always displayed on a big screen or as 3D hologram.

The context of uniting humanity to create a sustainable world for all and the safe space of non-judgment in the events, are the big drive for people to join the shared activities. We learned from the tremendous growth in our program that people like it that all our activities are not about being the best. They like it that all shared activities are about being yourself and experiencing joy, love and peace of mind. The activity we do is just the excuse to be together. One world united. All hearts connected!

## **Oct 3<sup>rd</sup> 2024, 11:28 am, Antigua and Barbuda – More Activities**

Fifty eight minutes into the event. Mahoro speaks: “In this event we had Sudarshan Kriya (breathing), dialogue, meditation, dance and aerobics as shared activities. For more information about all the shared activities we facilitate, go online:

[www.sustainableworldproject.com/joinevent.htm](http://www.sustainableworldproject.com/joinevent.htm)

We also have other events where we do singing, chanting and healing. For adults who want to become a partner in creating a sustainable world we recommend to keep joining our worldwide interactive events as Participating Audience.

We are preparing worldwide art events and even worldwide walks in nature will be something we can do together in the near future.” Simon in Antigua and Barbuda is laughing. “Walking in nature . . . you mean, swimming in nature!” He is following the event from a very unusual location. Take a look!

### **Nov 2<sup>nd</sup> 2024 8:00 pm, Bangalore, India – One Month Later**

November 2<sup>nd</sup> 2024 we have the 1673<sup>rd</sup> Global Interactive Event. After the last event, Stella's project has made a tremendous leap forward. Over 2500 new volunteers are supporting on location. Ten buildings have been transformed into interactive THRIVE Empowerment Centers. Even more incredible is that many cities around the world are following Stella's example. Suddenly worldwide, Empowerment Centers are popping up like weeds. At all these centers more Young World Leaders are being awakened. In an uncontrolled organic process, people from around the world have started to interact with the young people in these centers. We see some of the youth from these centers on the big Aircscreen. The light in their eyes already shows us they have discovered how wonderful and valuable they are.

With this velocity, not only will ALL homeless young people in Bangalore have shelter within the next 6 months, but they will also ALL have started the Young World Leader Program. This way they become a key in transforming their families and communities. The atmosphere in Bangalore is incredible. It is a city inspired. When you walk in the city there is a different experience. "Why do I see so many people smiling?" It looks like everybody I talk to has heard of the October event. What is next; beyond a city inspired? A state inspired? A country inspired? A world inspired? And what will come from that?

## **Nov 2<sup>nd</sup> 2024 8:00 pm, Bangalore, India – the Start**

Tonight Stella is co-hosting with Mahoro as global host. We are facilitating 5.126.836 people on 146.839 locations in 212 different countries.

In 2024 the 'Young World Leader Camps' have become global and 8 more large interactive camps are planned in the next 5 years. The collaboration with Fireflies Ashram has put the ashram firmly on the map of the world. Worldwide the Ashram is now known for its teachings in creating a sustainable world. The Young World Leader Empowerment Camps are worldwide known for awakening a deep love for ourselves, each other and our environment.

The event starts. In New York it is 10:30 am, in Lima 9:30 am, in Bangalore 8:00 pm and in Australia it is 1:30 am on Nov 3<sup>rd</sup>. Worldwide the primary leaders are starting to connect with the audience. We see Fernando connecting with the audience in Lima.

## **Nov 2<sup>nd</sup> 2024, 5:32 pm, Moscow, Russia – A Blinking Square**

Two minutes into the event. Stella is on the virtual world stage admired by more than four million young people aged between 10 to 29 years old. Onscreen we see the 2 minute trailer of the Sustainable World Project.

Suddenly we see a blinking square. We switch to Moscow. Bang, we see the Kremlin, it is almost dark over there, bang, we see a group of 5 Young World Leaders. Immediately, with loud voice, one of them says: “Where is Stella? Where is Stella, Gift, Mahoro, Abdallah and the rest of the team?” Stella walks to the front, to the microphone, a little concerned about this Russian Young World Leader. Then she sees that he is smiling and truly moved.

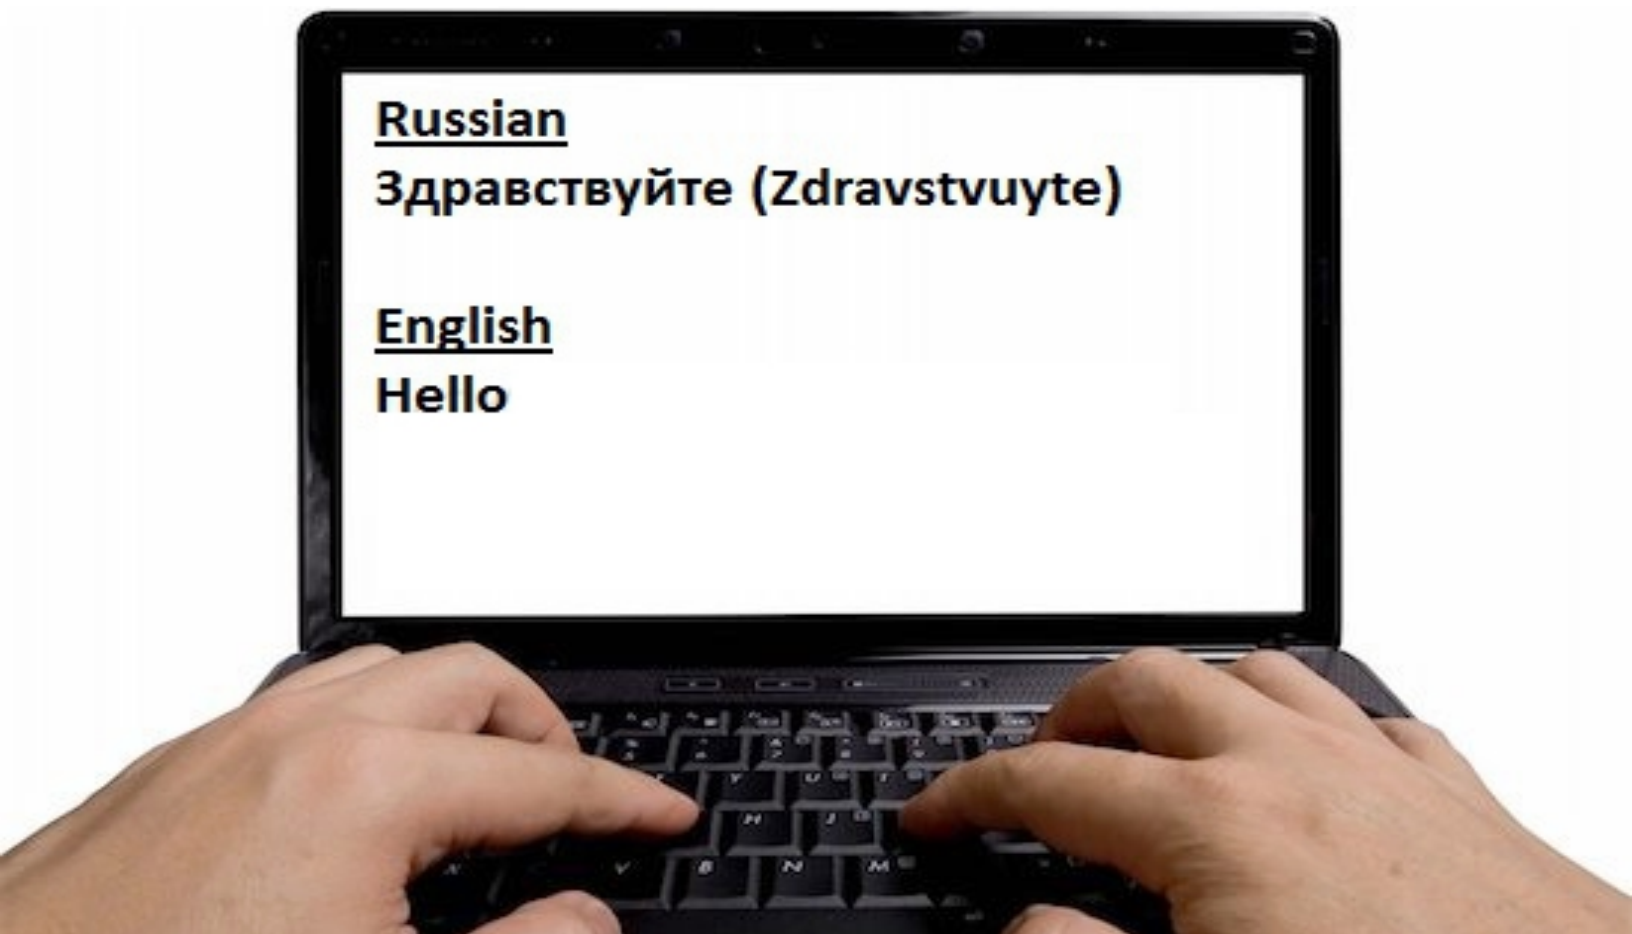

## **Nov 2<sup>nd</sup> 2024 10:33 am, Havana, Cuba – Speech Translation**

Three minutes into the event. Worldwide the screens now displays the Russian Young World Leader and Stella. He starts to talk. A few seconds later all connected countries see the subtitles in their native language. How is this possible? First the computer generates an English translation of the Russian spoken words using automatic speech translation.

This is being displayed on two computer screens of two Young World Leaders at the local site. In this example the Russian location. Both Young World Leaders correct errors simultaneously. One works from the end of the sentence, the other from the beginning. A smart software displays real time the changes they both make. Then they send it through as English text to all connected locations.

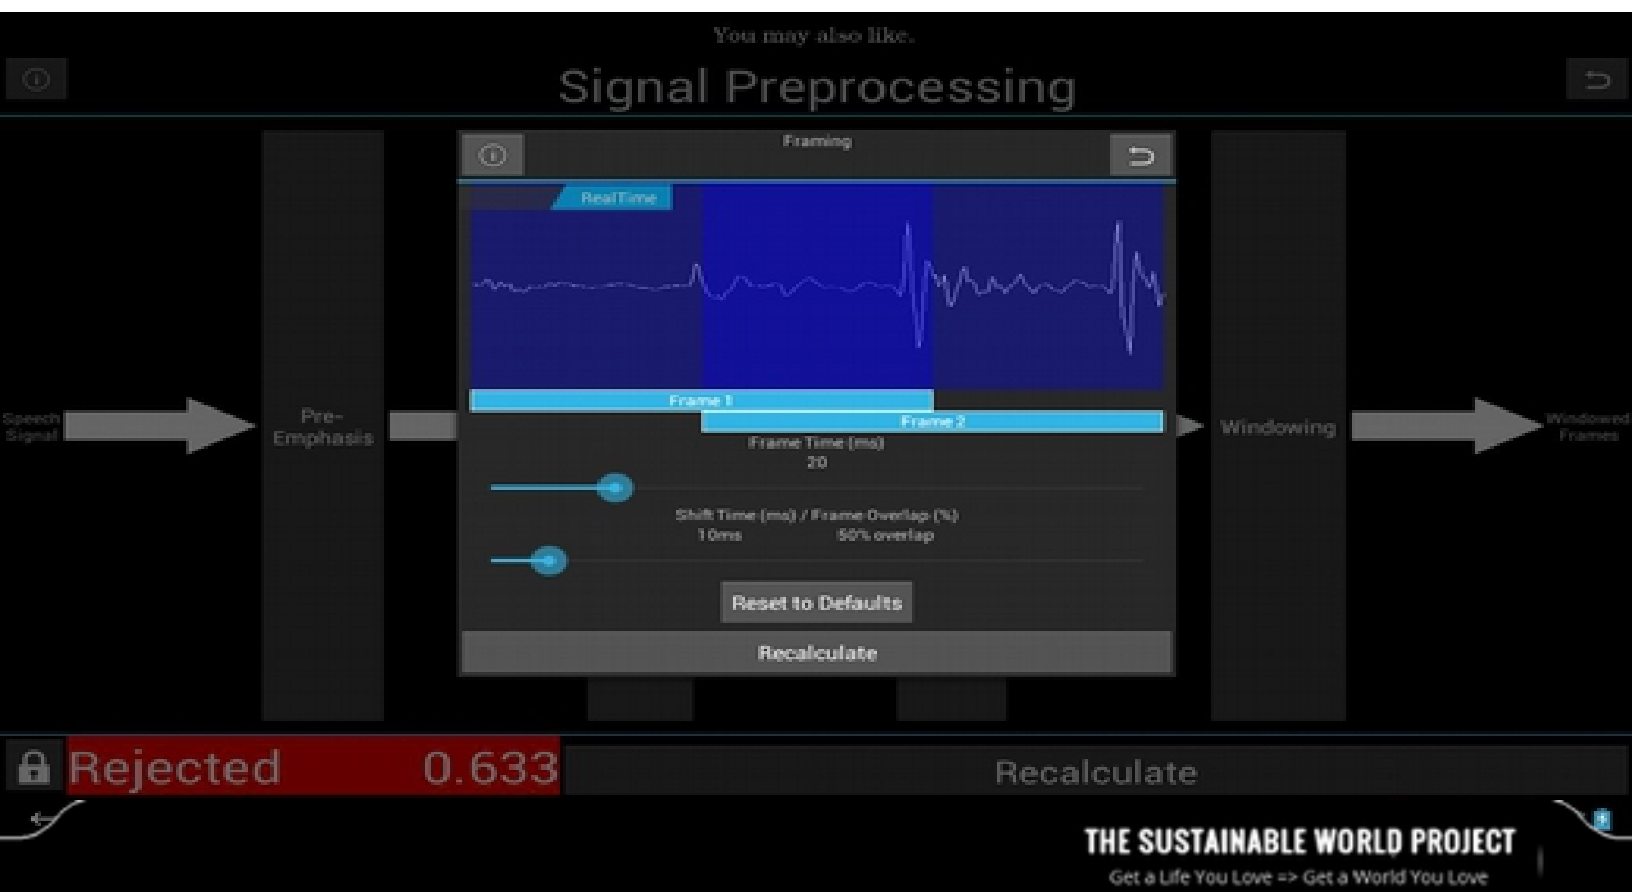

## Nov 2<sup>nd</sup> 2024 3:33 pm, Prague, Czech Republic - Breakthrough

At every location this English text is automatically translated in the native language of that country or state. In Prague Dimitri is correcting the Czech which was automatically translated from the English which was sent to all locations. Then it is displayed as subtitles on the screen. It is a technological breakthrough.

The people who are speaking are always asked to talk slowly and clearly and pause after each sentence. The pause at the end of each sentence also supports people to be present. The whole process for translation just takes 2 to 3 seconds depending on the skills of the local Young World Leaders . . . and boy oh boy these Young World Leaders are way fast.

More and more educational institutes partner up following the example of SWU in 2019. An abundance of volunteers is becoming available as so many students worldwide share the dream of creating a sustainable world.

## **Nov 2<sup>nd</sup> 2024 5:34 pm, Madagascar – Mikhail Zolotin Speaks**

In Madagascar Rojo is seeing the team of 5 Russian Young World Leaders on screen. The one with the white checked shirt is Mikhail.

Mikhail starts speaking: “Zdraavstvoechee. Minjaa zavoet Mikhail Zolotin. Spahsieba Stella and team!” Overwhelmed by emotion he suddenly stops speaking. Worldwide all locations are completely silent. All the Young World Leaders have been trained to accept and embrace the so called 'difficult' emotions like sadness, anger, guilt and more. This way they always provide a safe space for other people to fully express themselves. By accepting these emotions people automatically return to a state of Alpha. A state where the mind is quiet so love and joy can enter easily and frequently. This is what causes the powerful space in the events.

## **Nov 2<sup>nd</sup> 2024 11:34 am, Lima, Peru – the Power of Passion**

Four minutes into the event. A family in Lima, Peru is seeing Mikhail and his team on a big screen. Aldana, the 6 year old daughter, hears Mikhail continuing: “I was a student in a very traditional school here in Moscow. I dropped out as I was not satisfied with their approach towards young people and joined the Young World Leader Empowerment Camp in Moscow this year.

For the last 5 years I have been seeing many poor and homeless children. I had often been thinking: “I should do something about that!” But I never did. Then, last month I heard you talking, Stella. You are my hero for this year! You are pursuing your passion. Now I want you to know, that this is what happened out of you sharing your passion. I felt an excitement deep inside of me. Something I have never ever felt before. I assembled all my friends and asked them if they were willing to support me with doing something for these homeless children.”

### **Nov 3<sup>rd</sup> 2024, 1:35 am, Sydney, Australia – Mikhail Continues**

Five minutes into the event. Simone is at the harbor location in Sydney. She has a vision for introducing perma culture, releasing prisoners, changing the farming of animals, understanding drugs, and bringing meditation to our education system. She hears Mikhail speaking and is inspired to also get this much support. Mikhail continues: “When I asked my friends, all of them said 'YES! Lets do this!'. We reached out to 223 more people and 200 promised support.

Within 2 days we found an old unused office building and guess what? Last week we started a new THRIVE Empowerment Center. Let me tell you Stella why I want to thank you? Yesterday, I was walking in the city and I met a group of children. They reached out to me and asked me for money. I clearly understood that what they really wanted was a safe place and someone to tell them how wonderful they are.”

## Nov 3<sup>rd</sup> 2024 0:36 am, Pyongyang Korea - Empowering Youth

Six minutes into the event. Mikhail continues: "I always wanted to give these homeless kids a place where they could live and discover how precious they are. Yesterday, finally, I could tell them what I have been wanting to say for so many years. I said: "You are the most talented, the most interesting and the most extraordinary person in the world. You are capable of doing amazing things. You have a unique gift to contribute to our world. I want you to know that many people in many different countries have thought of how to support you. We are having a shelter and, if you want to, you are welcome to live there."

The spark of hope in their eyes gave me the most profound moment I ever had in my life." Mikhail starts laughing and crying at the same time. Kyung from Pyongyang in North Korea feels tears coming up too. He thinks: "This Mikhail guy is awesome!"

**Nov 2<sup>nd</sup> 2024 10:07 am Caracas, Venezuela - “Sharing is the Key”**

Worldwide people go wild cheering and shouting. Stella speaks: “On behalf of all young people, thank you Mikhail! Who else in the world wants to give thanks?” We switch to Kenya where Yongo speaks: “God bless you Mikhail.” The Aircscreen switches to Sweden where a teacher speaks: “Tusen gånger tack Mikhail, 1000 times thank you Mikhail.” We switch to Montreal, Auckland and San Francisco. We hear people saying: “Thank you Mikhail!” in many different languages. Paris: “Merci Beaucoup.” Caracas: “Gracia.” Venice: Gracias. Germany: “Danke schon!” Holland: “Dank je wel. Mumbai: Hazar Bar Shukria.

The slogan “Sharing is the Key” is displayed on all screens worldwide. What a wonderful touching beginning of this 1673<sup>rd</sup> Global Interactive Event. Isabella from Caracas thinks: “I wonder what the Young World Leaders will create next! Hmm, what am I going to contribute to create a Sustainable World. Lets think about that for some time.”

### **Nov 2<sup>nd</sup> 2024 8:38 pm, Thimphu, Bhutan - An Update of Charlene**

Eight minutes into the event. Puran in Thimphu, Bhutan is watching a big Aircscreen. On the screen he sees Charlene, the little girl who had cancer. Charlene starts speaking: “One day after the October event something amazing happened. I received a phone call from someone named Corey. Corey said: “I have been working in one of these black projects and I am going to make you a promise. I promise you that I will dedicate the rest of my life to get these healing technologies out in the open.

I have already started some conversations with my team leader. I showed him the video of the October event. He was deeply touched. I think we have a really good chance to get this done. And there is one more thing Charlene I want to tell you: . . . . I love you and I am there with you”. Charlene is deeply moved by Corey's courage, as she is crystal clear he is taking the risk of losing his life just to save hers.”

### **Nov 2<sup>nd</sup> 2024 3:39 pm, Algiers, Algeria - an Update from Prison**

The Airstream in Bangalore switches to Algeria and we are swept away by beautiful enchanting desert music. Onscreen we see the desert, some camels and next the camera takes us with incredible speed to a movie theater in Algiers. Onscreen we see Sam and Elise, two prisoners of MCI Framingham, eating a yummy meal.

Sam, the best friend of Elise, who we saw in the last event, starts to speak: "Today Simone came to the prison to make us a fancy 5 course meal. She said she was inspired by us because we are standing for the transformation of all prisons worldwide." All of us see a clearly empowered Sam. She smiles, pauses and then continues: "I have a 104 prisoners joining this event. Last week I reached out to 12 more prisons in the US and 11 of them are preparing to join the next worldwide interactive event. Next week I will start reaching out to prisons outside the US. I am super excited!" People start cheering worldwide as we are so inspired seeing these three very cool ladies!

## **Nov 2<sup>nd</sup> 2024 8:40 am, Puerto Barrios, Guatemala, Joe the Joker**

Ten minutes into the event. Right next to the Gulf of Honduras we find Puerto Barrios. Carlos is watching the big screen in Albacinema, a local movie theater. He hears Joe joking: "In the next shared activity we are going to give all of you an unprecedented experience." He makes a funny face and says: "So, what's new about that?" He starts laughing and laughing and laughing and the whole world is joining in.

The big screen switches to locations worldwide. People are falling of their chairs laughing. People are gasping for breath laughing. Dozens of audio channels are opened, synchronized with the switching squares on the big screen. We hear a united family laughing like never before.

It is **the** most liberating experience I ever had. There is a connection and a letting go of the past I am not able to describe here. I experience a new freedom. Joe has already given us the next unprecedented experience.

## Nov 2<sup>nd</sup> 2024 Greece - Preparation for the Sitting Down Healing

Joe pulls himself together: “Lets switch to Simone and Brittany, who are currently running a project in Greece.” On a parking lot in Athens we see both the ladies on a huge Airscreen. Brittany speaks: “Lets create a safe space for doing the healing work. In our current society we have forgotten what true love is. We have been deeply conditioned by media, movies, songs, books and more. What we have learned about love is mostly the Ego's version of love, which is not love. True love is the unconditional acceptance of what is. You can experience it at any given time with any given person. Touch can be a powerful access to love, but this is even more dangerous to talk about.” Brittany pauses, folds her hands, gives us a big smile and then continues.

“So lets enter the danger zone. Lets talk about touch. Observe your mind. When someone touches you isn't the first thing you think 'What do you want?'. What **we** are talking about is an unconditional touch. It is without agenda. So before you get excited or afraid, lets set the rules. We will start doing a sitting down healing session for rookies! We will only work on the head, the shoulders, the hands, the knees and the top of the feet.”

## **Nov 2<sup>nd</sup> 2024, 2:42 pm, Birmingham, UK - Sitting Down Healing**

Twelve minutes into the event. Jill from Birmingham, aged 43, is sitting next to a teenager Jonathan. Jill had never met Jonathan before. However, in this event, she has already interacted a couple of times with him and she has started to feel more safe. Before the healing starts, we do a round 'What's present'. Jill says: "I was thinking that you might be thinking: "Oh, here I am sitting next to this middle aged house wife and I have to give her healing. Why am I sitting here?". Jonathan smiles and calmly says: "No, actually I was thinking: "I hope she trusts me and will not see me as immature."

Jonathan is very present how sacred it actually is to touch someone. It literally builds a connection. Very carefully he places his hands on the top of her head. Jill feels this gentle touch and thinks: "He is very careful! I like that!" Immediately Jill starts surrendering and by the third position on her shoulders she starts to experience something extraordinary. The world slows down. It is difficult to describe. A wave of love engulfs Jill. It changes her forever. "I have never ever felt like this before!", Jill thinks. Jill enters the state of unity consciousness and tears are rolling down her cheek. Finally life makes sense. This is what I have been longing for my whole life. From the deepest core of her being Jill makes a commitment to a new mission. A mission to have each and every human being on our planet experience this.

## Nov 2<sup>nd</sup> 2024, the World – Five Million Hearts Connected

Twenty minutes into the event. The Airscreen now shows all the different locations where people are doing the healing. The squares keep on switching to different locations in our world.

We hear people's favorite healing music. We see young people, elderly people, people of different cultures, countries, background, color and religion, united as one. We see people sitting down and we see people laying down. Most people give healing to one another, some people are giving healing to their pets and some are giving healing to themselves. We see a world expressing love. We see a world transcending the illusion of separation. We see a world united. We are one.

I have never felt so connected. I have never felt so alive. We CAN love one another. We CAN trust one another. What will be the impact of this event in our world? What if we could feel this way every day? What if 80 million people would experience this? I now understand how a critical mass of 9000 Young World Leaders can change the world. I am in deep awe of their courage and commitment. What a heroes!

## **Nov 2<sup>nd</sup> 2024 –Stella is making the World a Better Place! Again!**

The Aircscreen switches to Bangalore. Stella starts speaking: “I am starting a new project. I want to make the world a better place by changing the way we interact with others. I want to change the world by creating thoughts and actions of love at a whole new level.

Shelter is a basic need that is unfortunately denied to many human beings. Here is the action of love we will take. We are going to create mobile homes for each and every person that needs shelter. The homes will be made of sustainable materials and will integrate into the environment seamlessly. It is our commitment that in the year 2026 every homeless person in Bangalore has a home they can call their own. These homes will be sustainable, comfortable and movable.

Through this project we WILL also inspire 5000 people in India who will join hands in making these homes available in all other cities. By the year 2030 everybody in India will have a home. As all of us are strengthening our faith in this movement, we will inspire the world and I commit that all people worldwide will have a home they can call their own by the year 2035.” Stella pauses, inhales and says with a power I have never heard before: “Now lets start making these beautiful and happy homes! Who is with me?”

The Aircscreen is switching to all the different locations around the world. Again we see and hear people cheering. Onscreen we see a white number rapidly increasing. It displays the amount of people who are committing to support. In just 5 seconds it says 174.862 people are committing to support this project in whatever way they can. Stella is almost fainting as even she did not expect this much support. The Empowerment Platform is as usual exceeding all expectations.

## **Nov 2<sup>nd</sup> 2024 – the Sustainable World Song**

Fifty minutes into the event we see the Airscreen switch to 9 squares. Barthi from Mumbai is saying: “In more than a 100 different languages 5683 musicians will now sing our Sustainable World Song.”

We see and hear musicians in front of famous landmarks. We see them with their instruments in beautiful nature. Hearing the music and seeing the beauty of our planet changes people's mindset instantaneously. We hear French, Spanish, English, Hindi and more. We see choirs, groups, duos and soloists. We see different faces, hear different styles, but the message is always the same. We are one! Loving the other is loving the self. Taking care of nature is taking care of ourselves. Once more we celebrate diversity and oneness.

The result as always is an unprecedented experience. We are reprogramming ourselves. We know that the power of this song will transform the mindset of millions of people. A new world will arise!

## Nov 2<sup>nd</sup> 2024 – Ending of the Event and Beginning of a New Era

Fifty five minutes into the event we are getting another unprecedented experience. Mahoro asks: "Can all locations dim their lights?" The next 10 minutes the audience worldwide is overwhelmed by people expressing their love. While fireworks, a light show and powerful music from 5683 musicians from all over the world, already touches our soul, we see the Aircscreen switching and we get to witness all the beautiful people in our world.

In many different languages we hear people say: "I love you, thank you for being in my world!" The screen switches to Paris. "Je t'aime!! Merci d'etre dans mon monde!" Frankfurt. "Ich liebe dich, danke schon das Sie in mein welt sein!" Bushehr, Iran. Shekoo speaks: "dooset daram motshakeram azat bara inke doyaye mani." Lima, Peru. Six year old Aldana speaks: "Te quiero, te doy las gracias por estar en mi mundo!" Jana from Slovakia: "Lúbim Ťa, ďakujem že si v mojom svete!"

## **Nov 2<sup>nd</sup> 2024 - What is your Legacy?**

The core team with some of the Senior Founders, Funders and Friends are all sitting quietly with a big smile on their face. We always joke and call ourselves the 'Old World Leaders'. Nathalie, Foster, Rosanne, Alesha, Michael, Megan, John, Sunitha, Kenny, Steven, Alex, Kimberly, Faith, Song, Teresa, Amy, Julie, Gregg and Kelly are deeply grateful and humbled by another unprecedented experience. Our vision for young people to become powerful young world leaders is unfolding and we have just experienced the impact in our world.

We feel confident that these Young World Leaders can indeed create a world that works for ALL. With deep awe and humility we say thanks for being able to be an instrument in freeing humanity from suffering. What better legacy can one leave behind.

On the big Aircscreen we see our beautiful planet. A sustainable world is arising. What a blessing. Finally life makes sense!

## Nov 3<sup>rd</sup> 2024 – the Day After the Event

The day after the healing session Jill from Birmingham experiences a very different day than normal. All her interactions since the healing session have been grounded in an undescrivable peace, love and joy. Her colleagues keep on asking her: “What happened to you?” Again and again she tells about her healing experience. All her colleagues are telling her that for sure they will join the next event on December 2<sup>nd</sup>.

Now I know, that Jill is not the only person sharing her experience of the event. I guess this means that next month we will have many more new people joining the event!

We hear a lot of buzz in the worldwide media about our interactive events. It looks like we are truly connecting the hearts of millions of people worldwide. I think next month we will easily exceed our objective of 8 million people and I know that within few months we will reach over 10, maybe even 20 million people. Latest 2026 we should reach our next critical mass of 80 million people. This is 1% of the worlds population.

As the demand for the events is increasing so strongly, we are looking to soon schedule these events on a weekly and then daily base. What will happen in the world when 80 million people daily experience profound love. What will they think? What wil they say? What will they do and how will that impact our world. I guess we will see in the months to come.

## **Nov 4<sup>th</sup> 2024 – Two Day's After the Event**

The November Worldwide Interactive Event is over. It was only possible because a small team of people supported the soft launch from 2015 to 2020. They were the ones who lived from the paradigm 'First I Believe and then I See'. Most people live from the paradigm 'First I see and then I believe'. The first group were the extraordinary people who had the vision and perseverance to nurture the project into existence from from 2015 to 2020.

Take a look at how it all started. The first visits to Pyramid Valley. How Saba connected the Founder of Pyramid Valley. How this lead to the first critical mass actions in July 2024. Watch this [Video with the Soft Launch](#)

Do you believe before you see? Step up and lets make the vision of a world that works for all people a reality. Click the next link to join.
